

## City Gallery Video Textual Description of the Scenes and Voice Over Script

<b>Part 1: Introduction</b>
(Filming and computer animation) On the grass, young person A pops up with some ideas.
Young person B, looking at the far side of the city, pops up with some ideas.
Elderly in the older parts of the city pops up with some ideas.
By the side of a preserved building, young tourist, looking at the slowly flying cubes in the air, picks up his camera to shot the cubes.
The crowd of people follows the cubes and cross the road.
Difference sizes of cubes go through the older and newer parts of the city.
At the background of green environment, father and son throw the cubes to the air.
Inside the ferry, a young person points at the cubes on the sea and the cubes group together slowly.
Up on the sky of the city, the cubes gradually grouped to form the logo of the City Gallery. <b>Caption: City Gallery</b>

Part 2: Vision of the City Gallery
<p>The city shots Different people in different unique places of the city.</p> <p>VO : As Asia's world city, Hong Kong takes pride in its comprehensive town planning and infrastructure development, as well as its unique city features. That is why, just like any other metropolitan city, we need a planning and infrastructure exhibition venue that belongs to Hong Kong – the City Gallery.</p>
<p>Outlook of the City Gallery. Main entrance of the City Gallery and the environment of the lobby.</p> <p>VO : The City Gallery, located in the Central District, not only shares with the public Hong Kong's achievements in development, but also promotes our work in planning and infrastructure to visitors coming from around the world.</p>
<p>(Computer animation) Introduce the logo of the City Gallery: close up of the blue layer of the logo. close up of the grey and green layers of the logo. Close up of the lower part of the rainbow colour layer.</p> <p>VO : The City Gallery logo represents Hong Kong and features our unique city characteristics. The bright blue sky; grey and green – the urban building profile and skyscrapers go side by side with the rolling ridge lines; and colours of the rainbow remind viewers on the spectacular night view along the coasts of Victoria Harbour!</p>
<p>The outside environment of the City Gallery including the adjacent City Hall.</p> <p>VO : Environmental conservation is what we value. The refurbishment of the City Gallery, therefore, tried to make the best use of the entire City Hall Annex Building.</p>
<p>The inside environment of the City Gallery and its unique features. The space of the third and fourth floors.</p> <p>VO : We tried, as far as possible, to renovate the original building structure in order to retain its uniqueness. Lots of efforts were spent on space utilisation. Part of the 3rd and 4th floor was opened up to create a spacious Multi-purpose Hall.</p>

### **Part 2: Vision of the City Gallery**

Broken shots of the current wall of the City Gallery.  
Broken shots of the glass escalator.  
Beautiful Victoria Harbour looking out from the City Gallery.

VO : The exhibition gallery makes good use of glass walls to allow greater transparency so that visitors can fully enjoy the beauty of Victoria Harbour through the floor-to-ceiling glass windows and lift.

Broken shots of the wind turbine on the rooftop.  
Broken shots of the solar evacuated tube collectors.  
Broken shots of the energy saving lift and escalator.

VO : On environmental protection and sustainable development, a demonstrative wind turbine and several solar evacuated tube collectors have been installed on the rooftop of the exhibition gallery, while LED screens are used in the exhibition areas inside the gallery. Moreover, gallery facilities like lifts and escalators are equipped with energy efficient devices to save resources and protect the environment.

<b>Part 5: Conclusion</b>
Broken shots of the City Gallery exterior. Different people in different unique parts of the city.  VO : The City Gallery showcases Hong Kong’ s major planning and infrastructure facilities. It allows us to review the city’ s past and future. Our participation is essential to help achieve a high quality city development.
Young man in the park said: Comprehensive infrastructure planning makes our life comfortable.
Young women standing by the waterfront said, ‘With better understanding, we will naturally be more concerned about this place that belongs to us!’
Broken shots of a group of kids with different culture playing together.
An elderly together with his grandson smiling and said: ‘We reminisce about Hong Kong in the past and at the same time look forward to a happy life in future.’
A tourist, holder his camera, said, ‘The unique city in my eyes, Hong Kong! marvelous!’
A family expresses their feeling in front of the camera. The father said: ‘We discover a sense of belonging, being born and raised here.’
Secondary students express their views.  Student A: ‘I can feel the charms of Hong Kong, a city that is one of its kind!’ Student B: ‘This is the flavour of Hong Kong!’
A smiling young woman said, ‘The City Gallery, where you begin learning about the uniqueness of Hong Kong.’
