

# Workshop on “City Impression@Connectivity – On the Right Track”

## Introduction

From a mere means of public transportation to a touristic amenity and an icon of Hong Kong, The Peak Tram has witnessed the dramatic transformation of our city over the past century, while connecting people in Hong Kong and beyond. Planning Department in collaboration with The Hong Kong Heritage Project present to you the thematic exhibition on “City Impression@Connectivity – On the Right Track” to examine the changing but unique role of The Peak Tram, discover its proximity and explore the memories of early commuters, Tram staff, the architect of old Peak Tower, as well as The Peak Tram’s lesser-known stories. Let’s board The Peak Tram together and trace the track of our city development together.

In relations to the thematic exhibition, we are organising a series of workshops with a view to provide a platform for parents and children to explore the history and development of the Peak Tram through making of handicrafts. Participants can also join the City Gallery’s guided tour to understand the town planning development in Hong Kong. Come and join the interesting handicraft making together!

The details of the workshops are as follows:

## Schedule

Topic	Date	Time
