在「樂•遊」展區中，參觀者可探索有趣的新未來主義戶外空間，中心構築物形狀如「∞」莫比烏斯環。展區內，年輕藝術家以兩種截然不同的風格——數碼藝術及馬賽克藝術——演繹香港的地方、人物、事件和集體回憶。

At the 'Playful Hong Kong' exhibition zone, let's discover delights of a Neo-Futuristic outdoor space, the centrepiece structure of which is modelled after a "∞"-shaped Möbius strip. This is a place where young artists express the city's places, people, happenings and collective memories in two contrasting styles – one in digital art and the other in mosaic blocks.
