我們對香港的願景，就是繼續成為宜居、具競爭力和可持續發展的亞洲國際都會。「展·望」展區運用後現代主義手法，通過數碼科技、新物料和光線，讓參觀者認識和體驗我們未來的城市環境。參觀者將沿著一條「無限」符號形狀的展覽路線，探索展區內五個互動模型，瞭解未來多個鞏固香港作為亞洲國際大都會的發展項目。

Our vision for Hong Kong is to continue to be a liveable, competitive and sustainable Asia's world city. In the 'Visionary Hong Kong' exhibition zone, let a Postmodernist approach show how digital technology, new materials and light convey perception and experience of the future urban environment around us. Walk this infinite path by exploring the exhibit's five interactive models, which detail projects that will keep Hong Kong moving forward as a world city in Asia for generations to come.
