

1. How much do you know about Hong Kong and other world cities?

a. Please compare the land area of the cities below, and write down number 1 to 5 in the blanks (1 represents the largest, 5 represents the smallest):

Hong Kong London Singapore Sao Paulo Paris

b. Please compare the height of the buildings below, and write down number 1 to 5 in the blanks (1 represents the highest, 5 represents the lowest):

Hong Kong Shanghaí New York París Tokyo International World Financial Empire State Tour Mid-Town Commerce Center Center Building Montparnasse Tower

c. Please compare the population density of the cities below, and write down number 1 to 5 in the blanks (1 represents the highest, 5 represents the lowest):

Hong Kong Mexico City Beijing Cairo Mumbai

In order to strengthen the status of Hong Kong as "Asía's World City", a number of infrastructure projects related to mainland links are underway, including ________, Guangzhou-Shenzhen-Hong Kong Express Rail Link, Liangtang/Heung Yuen Wai Control Point and Lok Ma Chau Loop development. Hong Kong would have better coordination and integration with ______ region.

- 3. Looking forward to the future, which of the following planning and infrastructure projects or proposals have been or will be carried out in the future by the government?
 - i. New Towns Development
 - íí. Habour Area Treatment Scheme
 - ííí. Energízíng Kowloon East
 - iv. Land Reclamation Projects
 - A. (i) & (iii)
 - C. (ii), (iii), (v), (vi), (vii) & (viii)

- v. Hong Kong-Zhuhaí-Macau Bridge Project
- vi. Revitalisation of old urban areas
- VII. West Kowloon Cultural District
- viii. Increase cross-boundary infrastructure
- B. (ii), (iv) & (vi)
- D. (iii), (iv), (v), (vi), (vii) & (viii)

Planning Process

- 4. Which of the following are related to planning work?
 - i. To enhance living and working environment.
 - ii. To guide and control development and the use of land.
 - ííí. To carry out lease enforcement.
 - iv. To promote the health, safety, convenience and general welfare of the community.
 - v. To work in collaboration in different stages of the planning process with government departments, its Mainland counterparts, boards and committees.
 - Vi. To carry out the planning policies of Development Bureau.

 - A. (i), (iii) & (v)
 - C. (iii), (iv), (v) & (vii)

- B. (ii), (iv) & (vi)
- ${\rm D.}\ (i),(ii),\,(i\vee),\,(\vee),\,(\vee i)\ \pmb{\&}\ (\vee ii)$

- í. To establish "gateway towns" in order to clean up degrade countryside.
- ii. Upfront cost is required at an early stage.
- iii. Opportunities are created to help lower development density in the Metro Area.
- iv. Greater diversity of density, design and built forms are provided through New Development Areas which allows greater flexibility for adoption of environmental measures and facilities.
- v. With the population built up in three New Development Areas, provision of infrastructure to the Northern New Territories is allowed and viability of new infrastructure is ensured.
- Vi. Upfront cost of New Development Areas is reduced.
- A. (i) & (iv)

- B. (ii), (v) & (vi)
- c. (i), (iii), (iv) & (v)
- D. (iii), (iv), (v) & (vi)
- 6. In order to strengthen Hong Kong's status as "Asía's World City", which of the following were proposed by the Commission on Strategic Development?
 - i. To strengthen links with the Mainland
 - íí. To enhance competitiveness
 - iii. To improve quality of life
 - iv. To reinforce identity and image
 - v. To ease the aging population problem

Living Environment

A. (i) & (iii)

- B. (ii) & (iv)
- C. (i), (ii), (iii) & (iv)
- D. (ii), (iii), (iv) & (v)
- 7. Which of the following are the considerations and possible solutions for repair or upgrade of underground infrastructure in a busy area?
 - i. Soil Displacement Method
 - íí. The areas' history and heritage
 - iii. Pipe Bursting
 - iv. The economic affordability of citizens
 - v. Horízontal Dírectional Drilling
 - ví. Building density

A. (i), (iii) & (v)

- B. (íí), (ív) & (ví)
- C. (iii), (iv), (v) & (vi)
- D. (i), (ii), (iii), (v) & (vi)

How much do you know about the transportation and communications of Hong Kong? 8. How long is the road network of Hong Kong? A. More than 1,000km B. More than 2,000km C. More than 2,500km D. More than 4,000km 9. How many equivalent units (TEUS) of containers do Kwai Tsing Container Terminals handle each year? A. Over 5 million B. Over 10 million C. Over 13 million D. Over 15 million 10. The four economic pillars of Hong Kong are: Financial services Trading and logistics iii. Manufacturing industry iv. Tourism Producer and professional services Vi. Agriculture and fishery A. (i), (iii), (iv) & (v) B. (i), (ii), (iv) & (v) C. (i), (ii), (v) & (vi) D. (i), $(i\vee)$, (\vee) & $(\vee i)$ Transportation and Communications 11. In order to strengthen the links with the Mainland, the Government has implemented the Hong Kong-Zhuhai-Macau Bridge projects. Please give a brief account of the uniqueness and advantages of the projects by filling in the blanks: Hong Kong-Zhuhai-Macau Bridge (HZMB) will be the longest ____ _____ with _____ carriageway in the world. A new _____ of reclamation has been adopted for use the first time in HZMB projects which helps conserve the marine ecology. Upon completion of the HZMB, this will provide long-term impetus to Hong Kong, in the sectors of _____, finance, ______, commerce and _
