

體驗自然

Nature in Touch

香港郊野公園景致迷人，各具特色，有海岸島嶼、群山疊翠、叢林草坡偏遠古村，處處風光如畫。青蔥的郊野不但是大自然的搖籃，孕育着多采多姿、饒有趣味的野生生物，更是理想的自然教室。

The country parks in Hong Kong encompass coasts, islands, verdant mountains, forests, shrublands, grass slopes and remote ancient village, offering spectacular, picturesque sceneries. The green countryside is the cradle of nature for a wide variety of interesting wildlife. It is also an ideal nature classroom.
